

12-13-75

Dr Mc Daniels; I have been moved to make some token of appreciation for this and your other courses by attempting to answer, or rather discuss the first three questions of the examination to be given.

I do not know if I have gleaned much as one should have without the intensive work that the regular students have done, but this I know - ~~there~~ is so much of beautiful interpretation and understanding that I have never found before that I am grateful beyond all words to have the good fortune of having, at this rather late date in my life, the joy of learning beautiful, reasonable and legitimate answers to so much that I have questioned for so long.

May every blessing go with you on your time away and may your work bring fulfillment and joy to you.

The tape of your sermon was - great! I have never heard you preach before and it was a delight, beside answering so many many questions. It is being copied, after which I shall return it to you - Thank you.

Most Sincerely,

Dora Brown, Palms
