Kathleen Bohren M.A.T.S.

Dear Dr. McDonnell;

I just finished making the copy of "In Ministry" and I wanted to tell you how much I miss being in your classroom! I am anxiously waiting for your re-used book - hopefully I'll be able to grasp it! I am enclosing an article one of the physicians gave me & I think there must be a reference to your work in it. I have highlighted it. I enjoyed the article & wish we could sit down & discuss it. Maybe your class would be interested in it.

Anyway, just wanted you to know I was thinking about you & appreciating what you gave to me at Eastern - thanks -

Kathleen Bohren
